## 17 Sustainable Development Goals

Aiming to “Transform the World,” the United Nations introduced 17 Sustainable Development Goals (SDGs) to guide all nations toward building a healthier and progressive future for everyone on the planet.

## Chairman's Message

### **Madhav University and the UN Sustainable Development Goals**

The United Nations Sustainable Development Goals (SDGs) offer a global blueprint for peace, prosperity, and the protection of our planet. At Madhav University, we fully embrace this vision and are committed to driving positive change through inclusive education, social responsibility, and sustainable innovation.

Through the Madhav Centre for Sustainability Development (MCSD), we strive to implement these global goals at the grassroots level. Situated in the tribal heartland of Rajasthan, our mission goes beyond academic excellence—we aim to empower communities, promote good health and well-being, ensure quality education for all, and foster environmental sustainability. These goals are not just ideals; they are actions we integrate into every facet of university life.

Together, as educators, students, and changemakers, we stand united with the global community in building a more equitable, resilient, and sustainable future for everyone, everywhere.

# **Madhav Centre for Sustainability Development (MCSD)**

**Sensitize. Sustain. Serve.**

At Madhav University, located in the tribal heartland of Sirohi, Rajasthan, we believe that true education goes beyond classrooms—it must uplift communities and contribute to sustainable development. Guided by the core principles of the United Nations Sustainable Development Goals (SDGs) and rooted in the values of People, Planet, Prosperity, Peace, and Partnership, we have established the Madhav Centre for Sustainability Development (MCSD) as a dedicated platform for driving transformative change.

MCSD focuses on nine key SDGs that align closely with the university's mission: No Poverty, Zero Hunger, Good Health and Well-being, Quality Education, Gender Equality, Industry, Innovation, and Infrastructure, Reduced Inequalities, Climate Action, and Life on Land.

In our tribal and rural setting, Madhav University has made equity and accessibility central to its vision. We actively support Quality Education through scholarships and fee waivers for students from disadvantaged backgrounds, ensuring that financial limitations do not obstruct academic opportunity. For children with special needs enrolled in our Special Education School, we provide free transportation—recognizing the importance of inclusive infrastructure and support systems.

To address Good Health and Well-being, the university regularly conducts free health camps and awareness programs, focusing on preventive care, hygiene, mental health, and community wellness. These are complemented by rallies and community outreach efforts that advocate for better health and social inclusion.

Tackling Zero Hunger, we provide free meals once a week to support students who may face food insecurity, reinforcing our belief that no one should go hungry in the pursuit of learning. Our efforts also extend to raising awareness about nutrition and sustainable agriculture, especially relevant in our agrarian and tribal surroundings.

In our commitment to grassroots engagement, Madhav University has adopted six villages— Wada, Bharja, Bhujela, Kasindra, Amthala, and Achpura—where we conduct regular health camps, educational activities, and development programs to uplift and empower rural populations through sustained, community-driven initiatives.

Our environmental initiatives are rooted in action-oriented learning. Through tree plantation drives, eco-awareness programs, and campus sustainability efforts, we actively promote Climate Action and care for Life on Land. The campus itself is being developed with environmental consciousness, incorporating green practices that reflect our commitment to sustainability.

With the launch of MCSD, Madhav University has formally taken up the responsibility to integrate these nine SDGs into all aspects of university life. By doing so, we empower students to become not just learners, but leaders—ready to address real-world challenges with knowledge, empathy, and purpose.

At Madhav University, sustainability is not just an ideal—it is a continuous commitment to build a just, inclusive, and empowered future, especially for the marginalized and underserved communities we proudly serve.

**Vision**

To become a transformative hub for sustainable development through inclusive education, innovative research, and community-centered solutions, contributing meaningfully to the realization of the United Nations Sustainable Development Goals (SDGs) at local, national, and global levels.

**Mission**

The mission of the Madhav Center for Sustainability Development is to promote awareness, education, and action towards sustainable development through inclusive learning, research, and community engagement. The center aims to equip students, faculty, and communities with the knowledge and skills needed to support the United Nations Sustainable Development Goals (SDGs). By encouraging innovation, ethical values, and collaboration, the center strives to contribute to a healthier, more equitable, and environmentally responsible future for all.

**United Nations Goal No: 10**

**Reduced Inequalities**

# 10 REDUCED INEQUALITIES

At Madhav University, through the Madhav Centre for Sustainability Development (MCSD), we actively pursue the vision of the United Nations Sustainable Development Goal 10 “Reduced Inequalities”. As a university located in the tribal heartland of Sirohi, Rajasthan, our commitment to inclusive education and social equity is central to our mission.

We believe that inequality—whether economic, educational, or social—can only be addressed through meaningful outreach, awareness, and empowerment. To this end, MCSD implements targeted initiatives both within the campus and across nearby tribal and rural communities.

- **Equal Education to All:** In our tribal region, we prioritize equal access to quality education for all. Our academic programs and support services are designed to ensure that students from underrepresented and disadvantaged backgrounds are not left behind. We promote equitable learning environments that reflect the principles of social justice and inclusivity.
- **Awareness Camps on Social Justice and Human Rights:** Through regular outreach programs in tribal villages and surrounding areas, we conduct awareness camps that educate people about fundamental rights, anti-discrimination laws, and social welfare schemes. These sessions empower individuals to claim their rights and participate actively in civic life.
- **Promoting Diversity and Inclusion:** On campus, we celebrate diversity and create inclusive spaces where all voices are heard and respected. Events, dialogues, and campaigns encourage intercultural understanding, gender sensitivity, and social cohesion. These awareness activities are also organized in nearby villages, extending our commitment to inclusion beyond the campus into the wider community.
- **Scholarships, Fee Waivers, and Financial Aid:** We offer scholarships, fee waivers, and other financial aid packages to students from economically weaker sections. By removing financial barriers to education, we help level the playing field and ensure that talent and potential, not socioeconomic status determine a student's academic journey.

Through these multi-layered efforts, Madhav University and MCSD are building a more equitable society where opportunities are not limited by birth or background. Our goal is to uplift every individual with dignity, empower them with knowledge, and support them in realizing their full potential.

**Place of the activity:** Wada village

**No. of students participated:** 28

**No. of Teachers participated:** 4

**Beneficiaries:** Local Community

**Activity Coordinator:** Dr. Bhawana Kumari, Dr. Shailendra Singh

**Activity Objectives:** The primary objective of a medical health checkup camp for the elderly is to provide comprehensive healthcare services tailored to the needs of senior citizens. This initiative aims to identify and manage common health issues in the elderly population, such as chronic diseases (e.g., diabetes, hypertension), vision and hearing impairments, and mobility challenges. The camp also focuses on preventive care through regular screenings and vaccinations, promoting healthy aging and improving overall quality of life. Additionally, it seeks to raise awareness about geriatric health issues, offer counseling and support, and ensure early detection and timely intervention to reduce the risk of complications.

**Activity Outcomes:** The outcomes of a medical health checkup camp for the elderly include improved health awareness and early detection of chronic conditions such as diabetes, hypertension, and arthritis. Participants benefit from timely medical interventions and personalized care plans, leading to better management of existing health issues. The camp facilitates access to essential healthcare services, reducing the risk of complications and hospitalizations. Additionally, it enhances the overall well-being and quality of life for the elderly by providing health education, promoting healthy lifestyles, and fostering a supportive community environment.
