

# PSYCHO-SOMATIC UNDERSTANDING OF BARYTA “ **MISPLACEDNESS** ”

**DR. DEEPSHIKHA SINGH**

B.H.M.S, MD

Department of Materia Medica  
Madhav Homoeopathic Medical College  
Aburoad, Rajasthan

# INTRODUCTION :-

- It is deep seated , long lasting medicine and it especially suits to those who are at extremes of life , i.e INFANTS and OLD PEOPLE .
- **CLINICAL** :- Aneurysm , apoplexy , alimentary affection , brain affection, dwarfism , foot sweat , glandular swelling , heart affection , hypertension , memory defective , quinsy etc.
- **SPHERE OF ACTION** :- It acts on glands , throat , prostate , blood vessels and nerves .

# PATHOGENESIS :-

- It produces degenerative changes in **brain** in infancy , acting upon **glandular system** , causing inflammation and hypertrophy .
- In old age , it is capable of acting on muscular coat of **heart and blood vessels** producing **arteriosclerosis** ,due to which there is **high rise of blood pressure** in old age .
- TEMPERAMENT :- Melancholic
- THERMAL :- Chilly
- MIASM :- Psora
- DIATHESIS :- Scrofulous and Tubercular

# PHYSICAL MAKE UP :-

- **1. SHORT IN STATURE :-** We can think of baryta if a man or women is short in stature or who has not grown to his or her normal height .
- **DWARFISM :-** They are short and bulky with round contours of the face , thick and short neck , thick lips often with improper proportion of parts of body . Hands , feet , fingers and toes may be thick and stubbed .
- **2. THOSE WHO BALD EASILY :-** Receding hair line can be present in baryta group .
- **3. BONY STRUCTURE OF JAWS AND ROUNDED FACE :-** Misplaced trait .

# MENTAL MAKE-UP OF BARYTAS :

- **1. WILL :- BASHFUL , TIMIDITY , Do not want to show their face , habit of hiding face with both his hands as if in shame .**
- **STRANGER , STRANGERS PRESENCE OF AGG.**
- **HIDE DESIRE TO , CHILDREN IN , STRANGERS FROM**
- **CONFIDENCE , WANT OF SELF**
- **RESPONSIBILITY LATE , IN CHILDREN**
- **CHILDISH BEHAVIOUR , IN OLD PEOPLE**
- **WILL , WEAK OF**
- **DEFIANT**
- **COURAGEOUS , FOOLISHLY**
- **OBSTINATE , HEADSTRONG**

# 2. INTELLECT :

- DEFECTIVE AND FAULTY INTELLECT :-
  - LAUGHING , CAUSELESS
  - LAUGHING , REPRIMANDS AT
  - LAUGHING , SERIOUS MATTERS OVER
  - SMILING , ALONE WHEN
  - CONFUSION , ANSWERING WHILE
  - ANXIETY , MISPLACED , HEALTH ABOUT
  
- WORK DESIRE FOR , ROUTINIST
- FIXED IDEAS
- CHANGE , AVERSION TO
- MULTI-TASKING , AVERSION TO
- CREATIVITY , WANT OF
- OBSERVATION , WANT OF
- LEARNING , DIFFICULT
- LEARNING , DIFFICULT , LEARNS THE SAME THING OVER AGAIN YET REMAIN UNTRAINED
- LEADERSHIP , WANT OF

# PSEUDO-EGO :

- **POSITIVE SIDE OF BARYTA INTELLECT :-**
- “ A father described her daughter - her brain works like computer , whatever has been fed will come out as it was fed without any mistake , but if you ask that in different way , she get puzzled .”
- 
- **MISPLACEDNESS :-** Priorities , courage , anxiety , attachments , understanding , behaviour , confidence , opinion .
- **INDISCRETION : CIRCUMSPECTION , LACK OF**
- **MISTAKE MAKES , SAME AGAIN AND AGAIN**
- **INCAPACITATED : DELUSION , LEGS ARE CUT OFF .**

# DELAYED :

- LATE , LEARNING TO TALK
- LATE , LEARNING TO WALK
- LATE , LEARNING TO WORK
- LATE , ACTIVITIES TO PERFORM
- DELAYED , MILESTONES ; DENTITION , WALKING  
CRAWLING , TALKING .

# Physical PQRS :

- 1. Enlargement of glands with induration .
- 2. Offensive foot sweat , cold clammy feet .
- 3. Biting nails
- 4. Dribbling of saliva ( **BORLAND** )
- 5. Sense of smell is very acute .
- 6. sweat , sides of body , onesided
- 7. liable to take cold easily
- 8. Baldness in young people
- 9. Upper lip swollen ( **DR. S.R. PATHAK** )
- 10. Ravenous appetite with emaciation
- 11. Emaciated child with enlarged abdomen  
( **DR. FARRINGTON** )
- 12. HAEMORRHOIDS protude everytime he urinates  
( **DR. H.C.ALLEN** )

# BARYTA PHOSPHORICUM

- CHILLY
- THIRSTY
- LEFT SIDED
- APPROACHING (P)
- NON - AGGRESSIVE (B&P)
- AFFECTIONATE (P)
- MISPLACED WANT OF MAGNETISM
- EXTROVERTED (P)
- HAEMORRHAGIC DIATHESIS (P)
- LIKES COLD DRINKS

# BARYTA IODATUM

- HOT
- THIRSTY
- EMACIATED
- APPROACHING
- HYPERACTIVE (I)
- IMPATIENT , HASTY , HURRIED (I)
- TALKATIVE (I)
- EATS WELL YET EMACIATION (B&I)
- RESTLESSNESS (I)

# BARYTA MURIATICUM :

- HOT
- THIRSTY
- LEFT SIDED
- OBEDIENT
- DILIGENT
- HARD KNOTTED , ROPE LIKE GLANDS
- ( MULTIPLE LYMPHADENITIS )
- ELECTRIC SHOCK LIKE SENSATION OR PAIN
- DESIRES DRY BREAD
- OTALGIA , BETTER SIPPING COLD WATER
- INSANITY/MANIA WITH PREDOMINANT SEXUAL DRIVE ( DR. CLARKE )
- PAINLESSNESS IN PAINFUL CONDITION .
- LEUKOCYTOSIS
- ABDOMINAL ANEURYSM
- INDURATION OF PANCREAS

# BARYTA SULPH :-

- HOT
- THIRSTY
- LEFT SIDED
- EXTROVERTED
- TALL PERSONALITY
- CENSORIOUS , FAULT FINDING (S)
- THEORISING (S)
- CANNOT BEAR HUNGER (S)
- LIPS DRY AND CRACKED (S)
- CREATIVITY (S) BUT NO APPTITUDE
- EXERTION PHYSICAL AGG.

# ESSENCE OF BARYTAS

- DWARFISM MENTALLY AND PHYSICALLY
- SUITED TO EXTREMES OF LIFE ( H.C.ALLEN )
- SHY , RESERVED
- BASHFUL , TIMIDITY
- SLOW LEARNING
- SENSITIVE TO PEOPLE COMMENTS AND TEASING
- INDISCRETION
- CONFUSION
- POOR INTELLECT AND MEMORY
- ROUTINIST
- FIXED IDEAS
- INCAPACITATED
- MISPLACEDNESS
- INATTENTIVE ( H.C.ALLEN )
- AVERSION TO PLAY
- AILMENTS FROM CHECKED FOOT SWEAT
- DELUSION , BEING LAUGHED AT , LOOKED AT
- LOST CONFIDENT IN ONESELF ( DR. W. BOERICKE )

## AGGRAVATION , WHEN THINKING OF COMPLAINTS

- AFTER BAR. C., PSORINUM WILL REMOVE THE CONSTITUTIONAL TENDENCY OF QUINSY .
- SWOLLEN TONSILS AND ELONGATED UVULA
- DYSPEPSIAS OF YOUNG WHO HAVE MASTURBATED AND SUFFER FROM SEMINAL EMISSIONS .( W. BOERICKE )
- SENILE DEMENTIA ( W. BOERICKE )
- BARYTA IS SLOW IN ACTION , BEARS REPETITION . ( W. BOERICKE )

## ATROPHY OF CRANIAL MATTER AT OLD AGE

- THEY CONSIDER THEMSELVES THE OBSERVED OF ALL OBSERVERS AND THE SUBJECT OF CRITICISM ( DR. N.M. CHOUDHURI )
- ANGER ASSOCIATED COWARDICE (DR.N.M.C.)
- DELUSION HIS LEGS ARE CUT OFF AND HE IS WALKING ON HIS KNEES ( DR. TALCOTT )
- OCCURRENCE OF NIGHT SWEATS .
- BARYTA CARB. IS ALMOST A GOD SEND TO PEOPLE HAVING PROSTATIC HYPERTROPHY .( DR. N.M.C.)
